Hitit University

Vocational School of Social Sciences

General Overview

Hitit University Vocational School of Social Sciences has a safe and easily accessible campus located in Çorum city centre since 1976, offering education intertwined with working life. Have a modern campus, Vocational School of Social Sciences is one of the oldest and deep-rooted educational institutions of our country that provides education to its students with ten departments and 13 programs connected to these departments with an expert academic staff. It will continue its innovative vision by getting stronger with the newly opened programs.

Social Education Vocational School, which sees education as a personality and vision development beyond acquiring technical skills and professions, provides responsible individuals to the society by providing education sensitive to social values. In addition to offering double diploma opportunities with double major programs, it plans to transition to this model by preparing the infrastructure of the "3 + 1 Workplace Practice Training Model" which enables students to learn their professions directly in the industry. Our students, who have been studying for a total of four semesters, will complete the term in theoretical and practical terms on campus and work in their field with on-the-job training in the industry. The School of Social Sciences, which offers education to its students in cooperation with the industry, has succeeded in carrying the education approach to a higher level than its equivalent schools with its infrastructure facilities, social facilities and applied laboratories. We have large green spaces where students can spend extra-curricular time, comfortably designed camellias, cafeterias and canteens.

In addition to the conference hall and guesthouse on the campus, refectory serves for lunch and dinner. We have voice and quiet study rooms that operate 24 hours a day. Our students can access the internet at any time with the possibility of wireless internet access in our school. Along with its proximity to comfortable accommodation opportunity is provided to you by our state. Also, values education and social responsibility activities are carried out in our school. Thanks to the on-site professional activities, students familiarize themselves with and experience the sector related to their fields.

Mission; To raise individuals with professional qualifications that can fulfil their obligations to serve the society in line with ethical and national values with an understanding of education and training that is open to innovation, practice-oriented, and employment-oriented at universal standards.

Vision; To become an exemplary higher education institution internationally preferred in the field of vocational education.

Quality Policy;

• To increase our education quality by continuously improving by the legislation, to enable our students and staff to benefit from international education activities,

• To enable our academic staff and students to carry out joint research and development activities in continuous cooperation with the public and private sectors,

• Encouraging our students and staff to participate in the development of the region, ensuring their participation in social, cultural and sports activities.
